Technical Skills

- **Languages & Frameworks:** JavaScript, HTML, CSS, React, TailwindCSS
 - **Tools:** Git & GitHub, VS Code
 - **Other:** Familiar with Python, Java, C++, SDLC principles
-

Projects

- **Text-Based Adventure Game — React, JavaScript, TailwindCSS**
Converted a Python command line game I developed into a browser-based interactive adventure game featuring a scrollable chat log, user controls, and inventory display.
 - **Fantasy Weather App — React, JavaScript, CSS, OpenWeather API**
A unique weather app that translates real-world weather into fantasy-themed events and messages. Emphasizes responsive design and API integration.
 - **Movies & Books Organizer — JavaScript, HTML, CSS**
A clean, modern web application for organizing and tracking favorite movies and books, showcasing React component structure and state management.
-
